

# BTEC Level 3 Diploma in INFORMATION TECHNOLOGY

The Pearson BTEC Level 3 Diploma in Information Technology is designed for students who are interested in the study of information technology (IT). It is designed to provide highly specialist, work-related qualifications in a range of vocational sectors. This Diploma enriches the learners with the knowledge, understanding and skills that they need to prepare for employment.

## **Learning Outcomes**

Upon successful completion of this course, graduates will be able to:

- Understand how organisations use business information
- Understand the issues related to the use of information
- Know the features and functions of information systems
- Be able to use IT tools to produce management information
- Perform end user support including identifying and implementing solutions to user requests
- Analyze technical requirements to determine resource requirements and the impact the solution will have on an organization
- Install technical hardware and software including network, database and security components;
- Identify and resolve technical problems using trouble-shooting and research techniques.
