

Level 4 Certificate in INFORMATION TECHNOLOGY

The BCS Level 4 Certificate is designed to provide students with a programme of study relevant to the commencement and development of a career in IT. It is the academic equivalent of the first year of a British University honours degree.

Learning Outcomes

Upon successful completion of the course, graduates will be able to:

- Understand how organisations use business information.
- Understand the issues related to the use of information.
- Know the features and functions of information systems.
- Be able to use IT tools to produce management information.
- Perform end user support including identifying and implementing solutions to user requests.
- Analyse technical requirements to determine resource requirements and the impact the solution will have on an organization.
- Install technical hardware and software including network, database and security components.
- Identify and resolve technical problems using troubleshooting and research techniques.
