

BSc (Hons) ENHANCED MENTAL HEALTH NURSING (Top up)

Graduate nurses are central to the design and delivery of equitable, ethical health systems that focus on public health, prevention of illness, care of physical and mental health for all ages in all healthcare and community settings. Nurses are at the forefront of new models of working including leading services. Investing in nurse education so that graduate nurses can tailor their care to people-centred models is imperative for the individuals and the ongoing development of the profession.

This degree consisting of four 20 credit modules and a 40 credit dissertation for qualified, experienced nurses to 'top up' their diploma to a degree in Mental Health Nursing supports this vision.

Course Aims

In providing this course, RBS and the course team aim to equip you to:

- Care for people to optimise their own health needs;
- Deliver safe, compassionate and effective mental health care;
- Inspire confidence in the profession;
- Make decisions on complex care needs based on a sound evidence base.

Learning Outcomes

On successful completion of this course students will be able to:

1. Manage self and others in practice in accordance with the NCM Code (2019) and ethical, legal frameworks that ensures the primacy of service user interest, respecting wellbeing and human rights.
2. Lead the delivery of innovative, evidence based practice within planned progressive and individualised care plans, which generates new understanding of the theoretical foundations of nursing care in a mental healthcare setting.
3. Deploy techniques of analysis and enquiry to mental health practice.
4. Appreciate uncertainty, ambiguity and limits of knowledge.
5. Show a critical appreciation of the principles of good governance in the management, leadership and development of mental healthcare.
6. Demonstrate initiative and personal responsibility in your own personal and professional development.
7. Demonstrate a commitment to furthering the professional status of mental health care.
8. Show a critical appreciation of the principles of good governance in the management, leadership and development of care.
9. Actively pursue a direction of personal, professional development that supports improvements in practice for self and other members of the interprofessional team.
