Foundation-level certificates

If you are new to accounting and finance, and do not have any formal academic qualifications, the Foundation-level certificates and diploma are the ideal starting point for you. You may start your ACCA journey with the Introductory Certificate, the Intermediate Certificate or the Diploma in Accounting and Business.

Fundamentals-level ACCA

The Fundamentals-level ACCA qualification is the next step after the Foundation Level, and paves the way for other Accounting qualifications. Modules follow a two-pronged approach: knowledge-based and skills-based.

Professional-level ACCA

Graduates with relevant accredited degrees from recognised institutions may begin their ACCA membership journey at the Professional level. You may claim up to nine exemptions based on previous qualifications.
